Melissa

Thanks, I knew I joined while I was on college, it must have been in 1988, not 1987.

Bill

Yes, I will do that as well.

Can you all look up how long I have been a member of SAE. I wanted to include that in my bio

I think 2017 might be my 30th year, but I can't remember

Melissa,

Sorry for the slow response. I will send you a bio and a photo tomorrow, December 21.

JoNell – can you remind me to do this tomorrow.

Thanks  
Bill

This is great news.

Bill,

We have you scheduled to kick off day 1 on Monday, January 23 at 1:00 PM at the Walter E Washington Convention Center in Room 150 AB. We are planning a 30 minute timeslot with approximately 20-25 minutes for the presentation and 5-10 for Q&A.

Can you please email me a photo and bio as soon as possible for promotional purposes and a working title for your presentation. I will get you registered for the event. If you need a hotel room, SAE is working with the Auto Show and has a block for the event and the Government/Industry Meeting which can be booked online at <http://www.sae.org/events/ide/attend/hotel-travel/>.

I will be in contact with more details closer to the event. If you have any questions, please don't hesitate to call or email. Thanks for your support and look forward to seeing you next month in Washington!

Melissa,

Bill is available and interested in being the keynote speaker. Please reach out to him to talk through logistics, etc. Thanks

Karl

See invitation below for the SAE Light Duty Emissions Control Symposium. More details on the event are available at [www.sae.org/events/ldc](http://www.sae.org/events/ldc).

November 1, 2016

Mr. Christopher Grundler  
Director, Office of Transportation & Air Quality  
U.S. Environmental Protection Agency  
1200 Pennsylvania Avenue NW  
Washington, DC 20460

Dear Mr. Grundler,

On behalf of SAE International and the Light Duty Emissions organizing committee, I would like to invite you, as a representative of the U.S. Environmental Protection Agency, to participate as Keynote Speaker at the SAE 2017 Light Duty Emissions Control Symposium. As Keynote speaker, you will have the opportunity to showcase EPA environmental direction and share viewpoints on the innovative solutions and technology development needed to lead the automotive industry into the future. As an environmental industry leader, the directives, knowledge and insight EPA provides would be an invaluable asset to this symposium.

The event will take place January 23-24, just prior to the SAE Government/Industry Meeting, and will be in conjunction with the 2017 Washington DC Auto Show. The Keynote is scheduled for 30 minutes on Monday January 23 at 1:00 p.m. and should be approximately 20-25 minutes with the remaining time devoted to audience questions.

This symposium will feature detailed technical presentations and will gather experts from the automotive industry development and manufacturing sectors to discuss the latest technology applications regarding emissions control of both diesel and gasoline light duty vehicles. This year's event topics will include discussion of and industry reaction to CARB, EPA and EC emission regulations as well as CAFE standards and the latest EPA Tier 3 emissions and fuel regulations, mandated from 2017.

We expect 125 attendees for your remarks and the symposium. I hope you will accept this invitation to participate in the SAE 2017 Light Duty Emissions Control Symposium. If you or your staff has questions on any

aspect of the meeting, please contact me at 724.772.4008 or  
[melissa.jena@sae.org](mailto:melissa.jena@sae.org).

Sincerely,
